

CodeWeek. @School

10-25 OCTOBER 2020

#CodeWeek

< What is EU Code Week? >

EU Code Week celebrates creativity, problem solving and collaboration through coding and other tech activities. Schools and teachers of all levels and subjects are invited to participate throughout the year. Learn more and add your activity to the Code Week map via the webpage specially dedicated to teachers: codeweek.eu/schools

< Why should you get involved? >

Coding helps develop 21st century competences such as computational thinking, problem solving, creativity and teamwork.

EU Code Week offers all students the possibility to make their first steps as digital creators, by providing schools and teachers free professional development opportunities, teaching resources, international challenges and opportunities to exchange.

By joining the EU Code Week and the [Code Week 4 All challenge](#), you can earn a Certificate of Excellence! Spread the word among your colleagues and invite them to join EU Code Week as well!

< How can you get involved? >

Anyone is welcome to organise or join an activity. Just pick a topic and a target audience and [add your activity](#) to [the map](#).

To get prepared take a look at the [how-to page](#), and download our [toolkits for organisers](#) to spread the word.

For additional training and guidance, visit our [teaching resources page](#) browse the [learning bits training materials](#) including videos and tailored lesson plans, or participate in an upcoming Code Week MOOC (Massive Open Online Course).
